## 📖 English: Creative Writing Adventure

Let your imagination run wild and write a short story inspired by the enchanting image below!

🖥️ Dive into a world of creativity and magic. Once you're done, feel free to type it up on Google Docs. Don't forget to share it with me, and I'll be reading some of the stories aloud on Monday! ✨

## 📏 Maths: Shape Scavenger Hunt

Embark on a mathematical treasure hunt around your home! Search for items of different shapes and snap photos of your findings. Can you spot both 2D and 3D shapes? 📷 Here are some ideas to get you started:

- **Circle:** A round clock face 🕒
- **Square:** A checkerboard pattern 🎲
- **Triangle:** A slice of delicious pizza 🍕
- **Cube:** A handy tissue box 📦
- **Cylinder:** A soda can 🥤

Let's see how many shapes you can discover! Share your photos and observations with me. Happy hunting! ✨

## 🔬 Science: Sorting Electrical Components

Take a tour around your home to identify various electrical components. Categorize them into items powered by mains electricity and those that are battery-operated.

The importance of electrical safety in the home cannot be overstated. Design a poster highlighting potential hazards and providing tips for staying safe.

Make sure to have fun and explore the world around you with curiosity and joy. See you on Monday! 🌈
